One partner for every tech need

Creavty is an Egyptian IT and web services company founded in 2018. We design, build, and manage the websites, web and mobile applications, hosting, and IT infrastructure that keep growing businesses running with the same team accountable from the first wireframe to 24/7 support.

Engineering discipline and creative craft under one roof.

Instead of coordinating a designer, a developer, a host, and an agency, our clients get one accountable partner who owns the outcome across every layer.

MILESTONES

- 2018 Founded in Egypt with web design and hosting.
